
Outline of Screen 1

View 1

Your usual residence is [street address as entered on the online census form]

You will be shown a map of the area in which your usual residence is located.

You will then be asked to say whether, within the next five years, you would prefer the number of people living in this area to:

- ? increase
- ? stay the same, or
- ? decrease.

Your answer will be used to help control the development of your area and to help set the level of migration into the country.
